

Final Recommendation

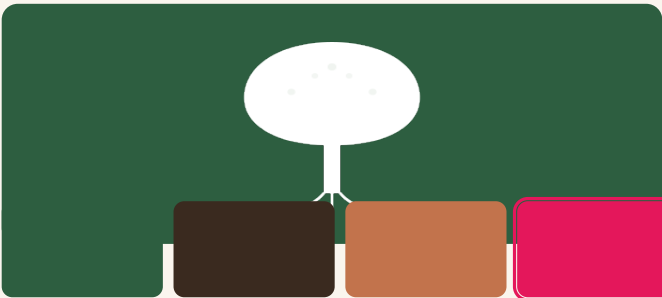

One logo. One vibrant accent. Informed by research, rooted in culture.

THE MARK

The Sheltering Iroko

Synthesis approach: Haviv's single-shape discipline, Dá Studio's Nigerian specificity (flat-topped iroko canopy, buttress roots), Bokhua's geometric precision. Uli-inspired dots as subtle cultural texture.

THE VIBRANT ACCENT

Zobo Magenta

#E4175B

Hibiscus held to light. Feminine strength.

THE SOFT SECONDARY

Petal
#FDE8EE

WHY THIS COLOR

The name is "Big Sister." The brand voice is feminine strength. Zobo magenta carries that energy more authentically than orange or indigo.

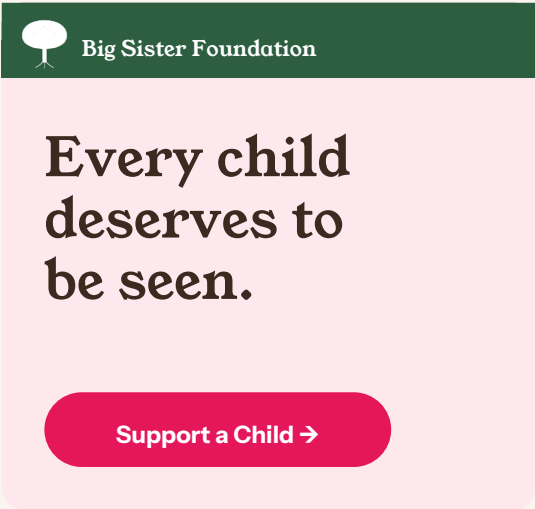

It's the least expected color in the Nigerian nonprofit space — which is exactly Walsh's principle: if everyone is earthy and quiet, being vibrant is the differentiator.

...us drink) is communal — it's what
...ts. The color is unmistakably
...unmistakably warm.

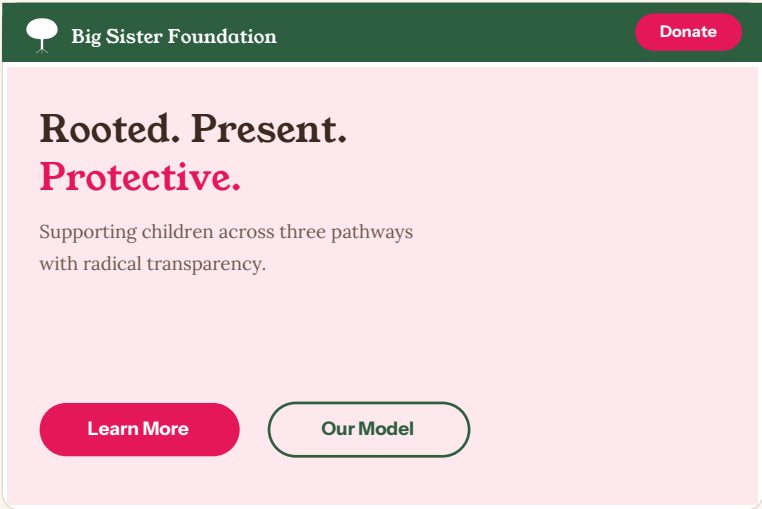

In Context

How the refined mark and Zobo Magenta work together across touchpoints.

LETTERHEAD

The System

Logo: Synthesis Sheltering Iroko — flat-topped canopy (botanically accurate), single continuous shape, uli-dot texture, buttress roots. Informed by Haviv, Bokhua, Dá Design Studio.

Vibrant accent: Zobo Magenta #E4175B — carries the brand's feminine strength, breaks nonprofit earth-tone convention (Walsh principle), rooted in hibiscus/zobo tradition. Soft secondary: Petal #FDE8EE.

The existing palette (Iroko Green, Terracotta, Deep Brown, Gold, Sage, Cream) remains unchanged. Zobo and Petal are additions, not replacements. Use Zobo for CTAs, highlights, and moments of energy.
